## TCU 5th Grade Blended Learning Day Plan Days 1/2

In the event of a snow day, we'll have a "Blended Learning Day" where we complete school activities at home. This helps us to keep learning and avoid having to make up the snow day. **NOTE: Our 1st snow day does not require us to complete any extra work.** Every snow day after that, is considered a "Blended Learning Day."

**Directions: Please complete an activity for each subject and show your work with one of the following:**

- ★ Work can be turned in in either paper form or in a google doc.
- ★ Work will be due back within 3 school days
- ★ Send your teacher pictures. (photographs: hard copy, emailed, etc..)
- ★ Cross off each box you've completed, parent sign this form, and return it.
- ★ Write 1 sentence about each box you choose and return it to class.

MATH	LANGUAGE ARTS	SCIENCE	SOCIAL STUDIES	SPECIALS
<b>MobyMax:</b> Log into MobyMax.com and do 10 minutes of Fact Fluency.	<b>Read:</b> Read for at least 20 minutes and tell someone about your book.	<b>Science Study Jam:</b> Pick and complete a <b>Science</b> study jam at studyjams.scholastic.com	<b>Readworks.org</b> Search for a <b>Social Studies</b> article that you find interesting, read it and do the comprehension questions.	<b>Music- On Back</b>

**Specialists-** Choose the specialist you would have visited today.

**Phy Ed-** Get your heart pumping! Roll a dice to select four of the following exercises, if you can't find a dice choose four. **Challenge:** Time how long it takes you to do all 6.

1. Push-ups	2. Sit-ups	3. Squats	4. Superman Stretch	5. Mountain Climbers	6. Burpees
24	35	40	25 sec.	40	15

**Technology:** Choose one of the following activities

Find 3 pieces of technology that you used today. Write a paragraph about each one (1 paragraph).

**-Your paragraph should have -Topic sentence, 3-4 Supporting sentences.**

**Music:**

Sing three holiday songs with family or friends. You can find karaoke tracks on YouTube or sing from memory!	Find things around the house that can be used as instruments. For example, the seat of a chair could be used as a drum. Record yourself playing your instrument or write a rhythm that can be played on your instrument.	Write the lyrics to a song about your Snow Day. What instruments would you like to use for your song?	Dance along to three YouTube dance videos. I recommend Koo Koo Kangaroo or John Jacobson for some fun songs that show you how to dance.	Use "found" materials at home to build an instrument.
--	--	---	---	---

**Art:** Choose one of the following activities. Bring in your drawing or a picture of your work!

Go outside and create a snow sculpture as big as you are! Not a snowman. Add food coloring or other colors if you would like.	Create a picture of yourself and your friends or family playing outside.	Imagine you have escaped to a warm place like a desert or a beach. Use any drawing materials available or painting materials you have to make an artwork of you escaping the cold.	Walk around and take or create at least five interesting pictures of the snow and ice at your house. Write one sentence per picture and tell why the snow or ice is interesting to you.	Use "found" materials at home to create a 3D sculpture or object.
